Lemurs

A lemur is a mammal with a long tail and fluffy fur. Some kinds of lemurs look a little like monkeys and others look more like mice or squirrels.

Lemurs live on the two islands called Madagascar and Comoros. Most lemurs live in trees and eat fruit, leaves, birds, birds eggs, insects and other small animals. Lemurs can be different in size, color and appearance. One lemur called the lesser mouse lemur only weighs 2 ounces, but is 13 cm long, not including its

tail! Lemurs don't have many enemies because there aren't very many large predators where they live. Many species of lemur are becoming endangered because people have cut down the forests for lumber and farming.

Carnotaurus

The carnotaurus was a dinosaur. The word carnotaurus means carnivorous bull. This dinosaur was a carnivore which means that it ate meat. Its bones have been found in Argentina. What is strange about this creature is that it is one of the only carnivores that had horns. Scientists don't know exactly why they had horns, but they might have used them for head bashing fights to impress mates.

EDITOR'S NOTEBOOK

Dear Archie Readers,

The time is drawing near, ghouls and guys. **SABRINA THE TEENAGE WITCH** will appear in her own all-new comic. The star of the brand-new Sabrina TV show, Melissa Joan Hart, appears on the cover of this comic alongside the cartoon version of Sabrina, drawn by the ever popular Dan DeCarlo. This combination photo/cartoon cover is destined to be a collector's item. Look for this number one issue to go on sale in October.

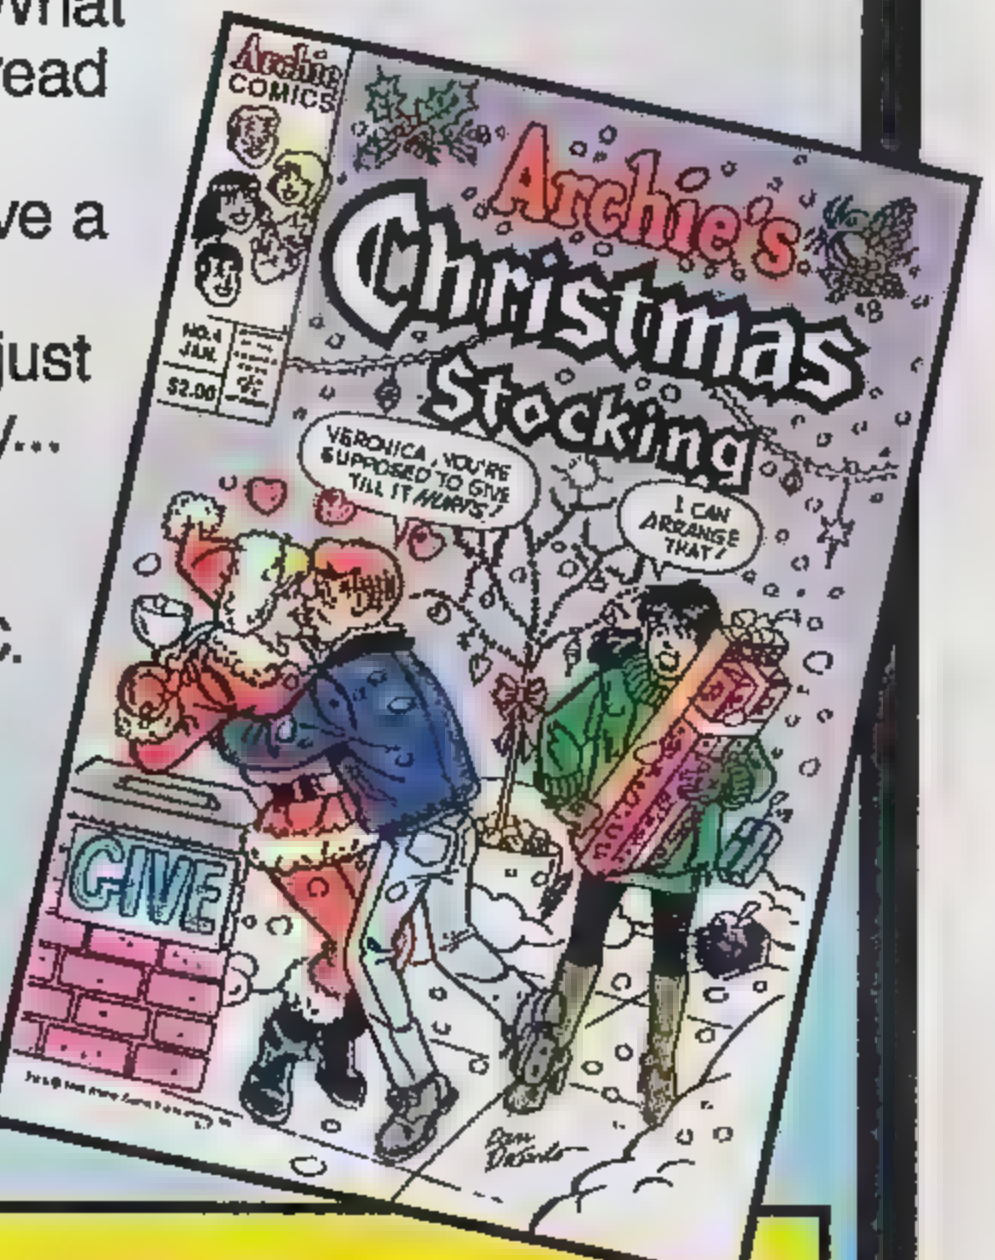

Now I know you might think it's a little early to be thinking about Christmas since you've only been back to school for about a month. However, my little elves, here at Archie Comics it's Christmas in August. That's when I start gathering hilarious holiday stories to tickle your toesies. To give you some insight into this year's edition of **ARCHIE'S CHRISTMAS STOCKING** (#4), let me tell you about the feature story entitled "Hacking All The Way." In keeping with holiday

tradition, everyone's favorite elf **JINGLES** visits Riverdale once again. As usual the mischievous little guy is in trouble. Big trouble this time. He's on Santa's "naughty list!" His only way out is to join forces with Reggie who certainly is no stranger to the N.L. The plan is for Jingles to use Reggie's computer to "hack" onto Santa's system and switch himself to the "nice list." In exchange, he lets Reggie put himself on the "nice" list, too. However, the good ol' Regster takes it one step further and slips Archie and Betty onto the "naughty" list just for fun. What happens next? You gotta read the book, silly!

Have a complaint? Have a suggestion? Have in digestion? Or maybe you just have something nice to say... write your letters to:
